GAME INSTRUCTIONS

Welcome to the Eye 2 a Greener Future Game, a contest made between three country partners in an Erasmus and eTwinning project

You have:

A game board

4 counters

1 dice

1 deck of cards

1 deck of jokers

- 1 Every gamer chooses a colour counter. You all throw the dice and the one with the higher score starts the game
- 2 In turns, throw the dice and count the numbers over the gameboard
- 3 The person on your right takes one card from the deck and reads the question.
- 4 You answer the question and if it is correct, you keep the card.
If the answer is wrong, the card gets back to the end of the deck
- 5 If you step on a ladder, move to the number it is pointing, either forward or backward
- 6 If you step on a logo of the project, find the joker card and follow the instructions on it

The game ends when the deck of cards is empty. You cross the bridge to start the game again as many times as needed

The gamer with more cards is the WINNER
